Dear Dave,

Connie and I want to express to you our sincere appreciation for the exceptional service we have received from your company over the past three years. The landscaping you have done at our property on Escalante has been done professionally, the designs have been outstanding and our overall satisfaction could not be higher.

We often hear glowing praise for the landscaping, typically from people just passing by, and it gives us a great deal of pride to get that recognition. As often as possible, we are pleased to extend credit to you folks.

The concern that you and Rhonda – as well as the guys who do the site work – have always given for the job being done right shows in the finished product. We look forward to working with you again when other projects arise.

Regards,

Jim & Connie Teller
